That can work- Douglas is the Peace Arch crossing and is about 1-1/2 miles from the Pacific highway crossing where I am. Give me a call as you're walking down and I'll drive over and meet you at Peace Arch. I'll let the shift sup know to expect you.

I have to deal with an appointment here in Burnaby at 10:30 am and then we are planning to head down to the border after that, so should be arriving just before noon.

I think the plan is to walk down from the Canadian side, from the Douglas CBSA building to the Blaine Command Centre building (just like Mr. Fox did on March 15th) in order to familiarize ourselves with the pedestrian crossing route etc. Hopefully that works out & we see you in a few hours.

It will be myself and Cpl. Andrew Coupe.

Kirsty

 Hi Kirsty:

I don't have a way to get the CD to CBSA. Depending on traffic and wait times, driving to the Pacific Highway crossing, either POV or truck lanes might be the fastest means. Just inform the primary officer why you are here and they can call me. I'm in the building above the truck lanes and next door to the passenger lanes and I can walk the CD over to you and you can flagpole back north from either location.

I'm here from 0815 hours.

Let me know what works best for you.

Regards,
 Rod

Rod,

Thanks. We are thinking of driving down to the border tomorrow to pick the disk up. Just trying to wrap our

head's around the logistics...i.e. parking on the Canadian side at the CBSA building and walking down to your building.

Unless you have the ability to get it to the CBSA building for us...i.e. a hand-off to one of the CBSA officers on shift at the Douglas crossing?

Let me know your thoughts?

Kirsty

Hello Kirsty:

I have received the processed CD from the Chicago lab. How would be the best way to get to you?
