Re: More recent communication with David Ely regarding lying judges and transcripts

Dear Mr. Rankin:

I am forwarding you a copy of some of my recent letters to David Ely regarding the matter of Judge Rideout lying about the transcripts of my 2020-11-26 trial. I am also including the relevant excerpts from that transcript.

Unfortunately, since I don't have the ability to make photocopies here at FRCC I am currently unable to provide you a photocopy of the transcripts or of Richard Fyfe's response to my 2021-02-03 letter. Nevertheless, I'm sure

it will find it's way onto the Internet long before CBC would ever intend to make any mention of it.

Good day, Mr. Rankin.

Sincerely,

Patrick Fox

P.S. It still fascinates me that CBC has no interest in the fact that CBSA's and IRCC's own records confirm that I was born in the US and was never issued any kind of status or citizenship in Canada, yet they still repeatedly allowed the US DHS to deport me here. Then, after I was convicted of criminal harassment (a deportable offense) CBSA refused to remove me (even when I demanded they do), or to even ask me to leave. And CBSA even went so far as to destroy critical evidence (they openly admit it) and conspired with Crown Counsel (Bernie Wolfe) to lie to the court about the existence of official records, AND have one of their officers commit perjury on the witness stand - all to try to cover up the fact that they colluded with US DHS to knowingly allow a non-citizen to be deported here.

CBSA relies on the unproven statements of Ricky Reiss's family - most of whom have a strong dislike for me, being that I supposedly "stole the identity" of their dead son/brother - to support their claims that I am the person who was born Ricky Reiss in Sudbury, ON and am, therefore, a Canadian citizen while refusing to acknowledge the DNA, fingerprint, and mugshot evidence that fairly definitively proves I am NOT the person who was born Ricky Reiss in Sudbury, ON and arrested by the Toronto Police in

1992 (hence the mugshot and fingerprints of Ricky Reiss). By the way, I obtained the mugshot and fingerprints of the 1992 Toronto Police arrest of Ricky Reiss from DHS who received it from the Toronto Police in May 2008 - which proves DHS knew I was not Ricky Reiss from Canada long before they deported me as Ricky Reiss in 2013.

So you'll put the time and effort into reporting that I was arrested and sentenced for breaching a probation condition, but NONE of this outrageous corruption and misconduct is news worthy? Fascinating!
