Re: Recent communication with BCS regarding
disclosure material

Dear Mr. Elg:

Please find, enclosed, a copy of my recent letter to the
BCS responding to their letter dated 2021-05-26
responding to my 2021-04-20 request for you to direct
them to make public all of the disclosure material related
to each of my prosecutions.

Given the BCS's response, which appears to be an attempt
to delay and to frustrate my efforts, I now formally
request you direct the BCS to provide to me a copy of
all of the records and material related to all of my cases.

This differs from my previous request in that previously I was requesting that the BCPS make the records publicly accessible, however now I am requesting the BCPS make the records accessible to me.

Since I have been very clear that I intend to use the records to expose corruption and misconduct within the BCPS then by refusing to release the records you are declaring your deliberate intention to continue trying to cover up that corruption and misconduct. And by deliberately trying to cover up that corruption and misconduct you are confirming your support of that corruption and misconduct. But don't take my word for it - check with your PR advisors.

Thank you, Mr. Ely.

Sincerely,

Patrick Fox
